

# DX9706-MLH(Prototype)

● Add an unique design to Denim Wears  
This specially remodeled DX machine provides a beautiful design and detail to your garments

● How the machine works

The machine has 3.2/7/3.2/7/3.2mm or 3.2/5/3.2/5/3.2mm gauges. Needle plate and presser foot make three tucks (protrusions) when the fabric comes in

● Codes for extra support

The mechanism gives an additional support to the protrusions . Machine also operates just fine without codes as well.

Application	Fabric Weight	Type of needle	No. of Needle & Thread	Gauge	Needle bar stroke	Stitch length	Diff.feed ratio	Presser foot lift (mm)	Max speed
Jeans	Heavy	TVx5 #14~16	Needle:3 Thread : 9	*3.2/7/3.2/7/3.2 *3.2/5/3.2/5/3.2	33	2.7~4.5 mm	N/A	12	3500
